

Self-screen: Does Pain Affect You?

- Do you suffer from unbearable pain?
- Are your daily activities affected because of severe pain?
- Do you have trouble sleeping?
- Are you physically and/or emotionally distressed?
- Do you take a large amount of pain medication?
- Have you undergone treatments in the past that have been ineffective?
- Does your pain control your life?
- Are you constantly looking for ways to relieve your pain?

If you can answer yes to any of these questions, the experience professionals at Research Medical Center may be able to help you reduce or eliminate your pain.
