Beds: 511  
Staff: 1,900  
Physicians: 500

Founded more than 120 years ago by German physicians, Research Medical Center has become one of the crown jewels in the HCA Midwest Health System. Located in the heart of Kansas City, Research Medical Center is among the only tertiary care centers serving Kansas City proper. Over the past century, this institution has built a tradition of serving residents in Kansas City and a 150-mile surrounding region with exceptional patient care and leading technology. Research Medical Center has completed more than \$100 million in capital improvements, including new lobby and admitting areas, renovated and expanded Cancer Center and Women's Care Unit, construction of all private patient rooms and doubling the Emergency Department.

Remember, Back In The Day...

...The premier hospital serving urban Kansas City, President Harry S. Truman's hospital, Research Eagle Air Ambulance, a leader in sophisticated technology and clinical expertise.

Now, Look At Us Today!

Research Medical Center is providing excellence in healthcare to the patients in our community and across the region.

Triple Gold Recognition by the American Heart Association and American Stroke Association Get With the Guidelines<sup>SM</sup>

program for performance achievement in three areas – Coronary Artery Disease, Heart Failure and Stroke patients. Nationally, fewer than 20 hospitals around the country have received this recognition.

Accredited Cycle II Chest Pain Center with PCI (Percutaneous Coronary Intervention)

### Cancer Center

22,000-square-foot Cancer Center designed as a comfortable outpatient facility as well as a dedicated inpatient oncology unit, with multidisciplinary specialists collaborating to help patients become cancer-free.

- Dedicated inpatient oncology unit features eight specially designed rooms to help eliminate the risk of infection to immuno-compromised patients and two suites staffed by chemotherapy-certified nurses
- 16-patient infusion suite for chemotherapy and other cancer treatments
- Eight exam rooms
- One procedure room
- Image-guided brachytherapy operating room suite
- Two linear accelerators to deliver image-guided · 64-slice CT scans for the clearest images to diagnose and stage tumors for treatment
- Three, full-time medical oncologists and a gynecologic oncologist
- Region's only Gamma Knife™, which uses powerful, computer-based technology called stereotactic radiosurgery to treat vascular malformations and tumors of the brain without invasive surgery
- Clinical trials, genetic counseling and lymphedema therapy
- Approval with Commendation for Cancer Program from the Commission on Cancer-American College of Surgeons

## Midwest STROKE CARE

Research Medical Center

First Certified Primary Stroke Center in the Region.

- Joint Commission Certified
- Acute Stroke Diagnosis
- Acute Ischemic Stroke Interventions
  - Intravenous and Intra-arterial tPA administration
  - MERCI clot retriever
- Acute Hemorrhagic stroke interventions
  - Intracerebral Bleed – Neurosurgery
  - Subarachnoid Bleed – Coiling and Clipping of Aneurysms
- TIA Clinic
- Stroke Rehabilitation

## LIVER & PANCREAS INSTITUTE

Research Medical Center

The Liver & Pancreas Institute of Kansas City at Research Medical Center is the first of its kind in the Midwest region to offer specialized care to those patients with various forms of liver, pancreas and biliary cancers. It offers liver disease services, pancreatic disease services, advanced endoscopic treatment, radiological and radiation therapy services, surgical services and oncology services. Clinical trials and algorithms are also offered to provide patients access to new, emerging and experimental treatments in many areas of liver and pancreatic diseases, including chronic hepatitis, malignant and benign tumors of the liver, pancreas and bile ducts. The LPI conducts multi-disciplinary case conferences.

## THE TRANSPLANT INSTITUTE

Research Medical Center

Transplant Institute National Recognition for Best Outcome Kidney-Pancreas Transplants Nationwide.

Level II Trauma Center – Designated by the state of Missouri

Fully Accredited by The Joint Commission with Gold Seal of Approval

Top 10% nationally in Core Measures for Heart Failure, Heart Attack Care, and Pneumonia Care™

### ST Elevated MI

Research Medical Center is one of the top hospitals in Kansas City with an average door-to-balloon time of 61 minutes (national goal is 90 minutes). Research Medical Center is the top hospital in Kansas City with 100% of patients receiving door-to-balloon times of under 90 minutes according to the HCAPS website [www.hospitalcompare.hhs.gov](http://www.hospitalcompare.hhs.gov). (Data published as of May 2010)

Completed more than \$100 million in capital improvements, renovations and expansions

including Cancer Center with dedicated inpatient unit on 4 east, Women's Center on 2 West, GI Lab, Radiology – MRI and X-ray, Cardiology EP Lab, B-level classrooms, parking and lighting enhancements

Established Research Physician Services downtown practice

CARE Values implemented as developed by the Employee Advisory Group
